

To whom it may concern:

Peerless Engineering Sales Inc. has been a provider of general industrial equipment, machinery, and state-of-the-art motion control solutions to the British Columbia and Alberta markets since 1947. We have earned a reputation for delivering state-of-the-art products and service to our customers.

We retained DOMINION Sales & Marketing Services Inc. (DOMINION) to create a strategic plan and provide the supporting sales and marketing collateral for a new product line we were introducing in the British Columbia and Alberta markets.

DOMINION designed and produced:

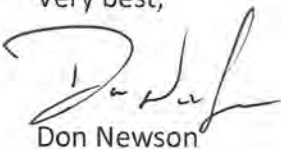

- A PowerPoint Presentation for our Lunch n' Learns;
- Digital Brochures targeted for each specific vertical we were targeting;
- Email Newsletters that were transmitted to our Lead Lists;
- Set up and configuration of the Mail Chimp Email Platform.

The materials produced were crafted very professionally and in a fashion that was a compelling read for our Prospects. These materials are now instrumental to our sales process.

DOMINION, very effectively, laid out a strategic plan to penetrate the market and gave our Sales Division the tools to hit the ground running. With DOMINION's guidance we have a plan and the support to get this new product to market quickly.

DOMINION has become a key strategic partner for us and we plan to retain them for additional Sales Support Services.

Very best,

Don Newson

Sales Manager
