

ROCKHILL MANAGEMENT LTD.

To whom it may concern:

Rockhill Management contracted the services of Dominion Sales & Marketing to assist with several aspects of our business including;

- Preparation of a complete Executive Summary within a set timeframe
- Creation of a comprehensive marketing plan
- Company re-branding including selection of new Internet domain name
- Strategic advice on "go to" market strategies

Dominion assembled a knowledgeable team who were able to address the areas of our business which required support and expertise. If we had hired, those individuals on our own, the costs and time involved would have been significantly higher than hiring the Dominion team.

Over the course of my 30 year career, I have come across very few companies that consistently deliver on their promises and Dominion did deliver.

Dominion has a level of sophistication, professionalism, experience, and track record that, as far as we could determine, few other companies in their industry possess.

Without question, we would recommend the services of this firm. Should you wish to speak to me in more detail regarding our experience with Dominion, please feel free to contact me.

Sincerely,

Michael J. Henson
President
